

ILS or LOC RWY 8
LANCASTER (LNS)

MISSED APPROACH:
Climb to 1200 then
climbing left turn to
3000 on LRP VOR/
DME R-333 to KUPPS
INT/LRP 12.5 DME
and hold.

The diagram illustrates the geometry of the TWR system. It shows a coordinate system where the vertical axis is labeled 077° . Two lines originate from a common point at the top left. One line extends downwards and to the right, labeled 6933×150 , with a small square symbol indicating a right angle. The other line extends more steeply downwards and to the right, labeled 4102×100 , with a star symbol. A third line segment connects the ends of these two lines, forming a triangle. An arrow points upwards along this third segment, labeled 0.3° UP . Various symbols are placed around the diagram, including circles with numbers (e.g., 31, 3, 8, 1), a circle with a cross, and a circle with a dot.
